

BRAC 2005 Infrastructure Steering Group (ISG)

Meeting Minutes of November 5, 2004

The Acting Under Secretary of Defense (Acquisition, Technology, and Logistics), Mr. Michael W. Wynne chaired this meeting. The list of attendees is attached.

Mr. Wynne opened the meeting by thanking the Military Departments for their participation and support in the November 4, 2004, Infrastructure Executive Council (IEC) meeting.

Mr. Wynne then asked Mr. Pete Potochney, Director of the OSD BRAC Office, to use the attached slides to guide the discussion. When reviewing the timeline, the ISG agreed that the IEC must have sufficient time to provide additional strategic guidance on scenarios and developing recommendations by the Military Departments and JCSGs, if necessary. Therefore, the current schedule of having JCSGs deliver candidate recommendations to the ISG by December 20, 2004, must be maintained. The ISG Chair stated that he would establish a formal schedule for future IEC meetings. The ISG also agreed that senior Military Department leadership needs to increase its involvement with the JCSG scenario development and analysis process. A number of the ISG members noted that their senior leadership has been involved in the JCSGs' efforts.

Mr. Wynne briefly summarized the IEC meeting held the evening before. He noted that the IEC discussed overall organization, timeline, roles, and overarching strategies. The ISG members who were present at the IEC meeting agreed with his assessment that the IEC and the Secretary were supportive of progress to date and recognized their need to be involved in future process. Mr. Wynne explained that the IEC had some concerns about the degree of specificity the scenario data calls would contain and the attendant need to strictly enforce all internal controls. The ISG agreed that scenarios data calls will be specific, and that all information must remain close hold. The ISG also agreed that each data call should clearly explain to the recipient that receipt of a scenario data call does not in any way imply that a decision has been made, only that an option is being analyzed and that data is necessary to conduct the analysis. Mr. Wynne agreed to clarify with the Secretary the specificity of scenario data calls because there may have been some confusion at the IEC on the level of detail contained in scenario data calls.

Mr. Potochney discussed the timeline for scenario data calls and noted that it was up to the Military Departments and Defense Agencies to determine the best way to provide certified data to the JCSGs. The ISG then heard each JCSG report the status of their scenario data calls as follows:

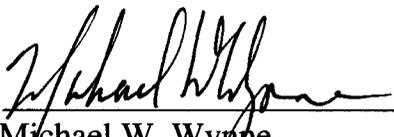

- Industrial—all scenario data calls will be ready for issue to the Military Departments and Defense Agencies by November 12, 2004 (November 8 for Armaments, November 10 for shipyards, November 12 for Maintenance)
- Education and Training---working to resolve data concerns associated with Ranges and Specialized Skill Training and then will determine when scenario data calls could be released
- Headquarters and Support Activities—90 scenarios registered to date with five scenarios released to date, eight expected to be released later that day (November 5), 15 will be released by Army BRAC office next week, and 90 percent of the scenario data calls will be issued by November 12
- Intelligence—seven scenarios are registered with three more to be registered by next week, all scenario data calls will be issued by November 12
- Supply and Storage—24 scenarios registered with scenario calls for all 24 to be released by November 12
- Technical—14 scenarios registered with an additional 8 being deliberated on November 9; of these, 5 to 10 scenarios will have data calls issued by November 12, with remaining data calls ready for issuance by November 19

The ISG next discussed the scenario deconfliction process. The Air Force ISG member stated that the Air Force needed an additional two to three weeks to develop detailed scenarios. Mr. Wynne stated that delays make it harder for the DASs to deconflict scenarios, and asked the Air Force to move as quickly as possible. The ISG approved the resolutions for new conflicts as provided in TAB 2 of the ISG's read ahead package.

Mr. Potochney next reviewed the Department's "lessons learned" from prior BRAC rounds. He stressed the importance of having detailed analysis and an examination of alternative scenarios. He noted the importance of consistent application of the Selection Criteria.

Mr. Potochney noted that the JCSGs were tasked to provide a scenario process status. He stated that the ISG should also understand the overall status of the JCSGs' efforts to date in a format similar to that shown in the chart. The ISG agreed that the JCSG should provide the status information by November 15 for discussion at the November 19 meeting. As part of the discussion, the ISG agreed that the JCSGs are responsible for conducting criteria five through eight analyses for each of their scenarios. The ISG also discussed whether to have a "Red Team" examine the Military Department and JCSG products and approaches. Mr. Potochney noted that his contract support staff has been conducting red team analysis of the JCSG approaches as they are developed. Mr. Potochney agreed that he would pursue a separate Red Team analysis.

Mr. Wynne concluded the meeting by stating that the Military Departments and JCSGs must continue to complete all tasks necessary to produce final recommendations. He also discussed the need to determine a way to graphically (e.g. with maps) convey the strategic intent of each JCSG and Military Department's scenarios to the IEC and the Secretary.

Purpose

- Process Overview
- Summary of IEC Meeting
- Status
 - Scenario Data Call Preparations
 - Conflict Review
- Learning from Prior Rounds
- JCSG Reports on Status of Analysis

Process Overview

Summary of IEC Meeting

- IEC briefed on:
 - Organization, timeline and their role
 - Overarching strategies and illustrative scenarios
- Future Issues:
 - Homeland Defense
 - CoCom Involvement
 - Statutory Surge Requirement

Scenario Data Call Preparations

- Developed a standardized template
- Chairman authorized release of Scenario data calls
 - JCSGs provide questions to MilDep/Defense Agency as scenarios deconflicted.
 - MilDep/Defense Agency ask questions within 1 week of receipt (2 days if no issues).
 - Field answers questions within 48 hours.
 - MilDep/Defense Agency provide answers to JCSG within 48 hours of receipt from Field.
 - Certification to follow ~ 2 weeks.
- JCSG Status of scenario data call questions to MilDep/Defense Agency
 - Education & Training
 - Headquarters & Support
 - Industrial
 - Intelligence
 - Medical
 - Supply & Storage
 - Technical

Summary of Conflict Review

- 296 Registered Scenarios as of 15 Oct 04 (In coordination)
 - 86 Conflicts Settled
- 356 Registered Scenarios as of 22 Oct 04
 - 115 Conflicts Settled
 - 113 Not Ready for Categorization
 - No detail on transfer of unit(s), missions(s), &/or work activity and locations involved
 - 109 Independent
 - 8 Enabling
 - 11 Deleted

Recommendation

- Approve proposed resolutions for New Conflicts Settled
 - TAB 2 of read-ahead materials

Learning from Prior Rounds

- Prior BRAC Commissions rejected approximately 15% of DoD’s recommendations.
 - Commission must find that SecDef “deviated substantially” from the Force Structure Plan or Selection Criteria to change
- Scenario Analysis will benefit from understanding the basis of the Commission's rejections
- Three prominent areas of deviation

Prominent Areas of Deviation

- Implementation Costs/Savings (Personnel & Dollars)
 - Understated
 - Missing
- Requirements/Capabilities
 - Contingency (Surge) needs
- Economic Impact
 - Used inconsistently to reject an otherwise justified recommendation

JCSG Reports on Status of Analysis

- ISG previously directed JCSGs
 - Complete capacity and military value analyses and progressively report results to ISG.

- ISG also directed JCSGs to brief the status of their scenario analysis (15 November)
 - JCSGs should report the status of their analysis by paper

MEMORANDUM FOR INFRASTRUCTURE STEERING GROUP (ISG) MEMBERS CHAIRS, JOINT CROSS SERVICE GROUPS (JCSG)

SUBJECT: Read Ahead Material for the November 5, 2004, ISG Meeting

The Infrastructure Steering Group will meet on November 5, 2004, at 10:30 a.m. in 3D-1019. The meeting's primary focus will be on the scenario data call process, lessons learned from prior BRAC rounds, and the status of JCSG analyses. JCSG Chairmen should be prepared to briefly discuss the status of their scenario data requirements.

For your advance preparation, I am attaching the briefing slides and backup materials on all the scenarios. The attached package includes all 356 scenarios registered in the tracking tool (TAB 1). The section titled "New Conflicts Settled" includes new scenario conflicts on which the DASS and affected JCSGs agree regarding the proposed resolution (TAB 2). Absent objections at the meeting, the proposed resolutions will be deemed approved by the ISG. The section title "Conflicts Settled" includes those scenario conflicts in coordination awaiting ISG approval (TAB 3). The details of each scenario, by category, are provided at TABs 4 - 7.

Scenario Title: MAH-MAH-0009: Consolidate/Co-locate Installation Management Agencies and Army Service Providers

Description:

- Realign Anacostia Annex and realign 1 leased location in Arlington, Virginia by co-locating USN Chief of Naval Installations (CNI) and USA Installation Management Agency (IMA) at Ft. Lee.
- Realign 5 leased locations in Falls Church, Arlington, and Alexandria, Virginia by co-locating USA Community and Family Support Center, USA Center for Substance Abuse, USA Family Liason Office, and USA Human Resources Office XXI with IMA headquarters at Ft. Lee.
- Realign Ft. McPherson and Ft. Monroe by consolidating regional offices of IMA with new IMA HQ at Ft. Lee, forming an IMA Eastern Region.
- Realign Rock Island Arsenal by consolidating IMA regional office with existing office at Ft. Sam Houston, forming IMA Western Region.
- Realign 2 leased locations in Falls Church and Alexandria, Virginia, Ft. Monroe, and Ft. Eustis by consolidating Army Contracting Agency (ACA) HQ and regional offices to form ACA Eastern Region at Ft. Lee.
- Realign Ft. McPherson by consolidating ACA regional office with existing office to form ACA Western Region at Ft. Sam Houston.
- Realign 1 leased location in Arlington, Virginia, Ft. Monroe, and Ft. McPherson by consolidating USA NETCOM HQ and regional offices to form NETCOM Eastern Region at Ft. Lee.
- Realign Rock Island Arsenal by consolidating NETCOM regional office with existing office to form NETCOM Western Region at Ft. Sam Houston.

Justification/Impact:

- Eliminates leased space within the DC Area (exact USF/GSF and personnel affected TBD-in process).
- Enhances AT/FP.
- Co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions.
- USA estimated personnel reduction of up to 200 positions (IMA Regions).
- Ft. Lee reports 28,658 GSF of vacant administrative space and sufficient land to accommodate over 21.3 million GSF of new administrative space.
- Ft. Sam Houston reports 88,945 GSF of vacant administrative space and sufficient land to accommodate nearly 11 million GSF of new administrative space.

Scenario Title: MAH-MAH-0001: Consolidate Defense Information Systems Agency (DISA) Components within DC Area

Description:

Close 4 leased locations and realign 5 leased locations, Arlington Service Center (Navy), and Ft. Belvoir by consolidating components of DISA at Ft. Meade.

Justification/Impact:

- Consolidation of HQ locations from 11 to 1 eliminates redundancy and enhances efficiency.
- Encompasses 1.06 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 701,200 GSF.
- Eliminates 566,000 USF of leased space within the DC Area (707,000 GSF equiv).
- 4 leased locations can be closed: approx. 535,000 USF.
- Affects 4,382 personnel, as currently reported. Scenario estimates a 20% personnel savings as a result of consolidation, or 876 positions.
- Enhances AT/FP
- Relocates major tenant from Arlington Service Center and allows Navy to consider closing that installation.
- Ft. Meade reports 28,755 GSF of vacant administrative space and sufficient land to accommodate 7.4 million GSF of new administrative space.
- Scenario does not consolidate the following locations: Anacostia Annex, Chambersburg, and Mechanicsburg.

Description:

Realign 2 leased locations, close 5 leased locations, and facilitate disposal of Federal Office Building 2 (FOB 2) by consolidating MDA HQ and relocating at Ft. Meade.

Justification/Impact:

- Consolidation of MDA-controlled HQ locations from 8 to 1 eliminates redundancy and enhances efficiency.
- Encompasses nearly 600,000 GSF (or equivalent), as currently reported as MDA-controlled. Computed space required at 200 GSF/person=419,600 GSF.
- Eliminates over 248,000 USF of leased space within the DC Area.
- 5 leased locations can be closed: approx. 195,000 USF.
- Affects approximately 2,400 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 341 positions.
- Enhances AT/FP.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Ft. Meade reports 28,755 GSF of vacant administrative space and sufficient land to accommodate 7.4 million GSF of new administrative space.

Meade.
- Close 1 leased location in Alexandria, VA by co-locating the American Forces Information Service with the Defense Information School and the new DoD Media Activity at Ft. Meade.

Justification/Impact:

- Eliminates approximately 84,000 USF of leased space.
- Affects 623 personnel. Scenario estimates a 14% personnel savings for the media activities as a result of consolidation, or 36 positions.
- Enhances AT/FP.
- Consolidation and co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Consolidation and co-location of organizations facilitates possible consolidation of common support functions.

Scenario Title: MAH-MAH-0009: Consolidate/Co-locate Installation Management Agencies and Army Service Providers

Description:

- Realign Anacostia Annex and realign 1 leased location in Arlington, Virginia by co-locating USN Chief of Naval Installations (CNI) and USA Installation Management Agency (IMA) at Ft. Lee.
- Realign 5 leased locations in Falls Church, Arlington, and Alexandria, Virginia by co-locating USA Community and Family Support Center, USA Center for Substance Abuse, USA Family Liason Office, and USA Human Resources Office XXI with IMA headquarters at Ft. Lee.
- Realign Ft. McPherson and Ft. Monroe by consolidating regional offices of IMA with new IMA HQ at Ft. Lee, forming an IMA Eastern Region.
- Realign Rock Island Arsenal by consolidating IMA regional office with existing office at Ft. Sam Houston, forming IMA Western Region.
- Realign 2 leased locations in Falls Church and Alexandria, Virginia, Ft. Monroe, and Ft. Eustis by consolidating Army Contracting Agency (ACA) HQ and regional offices to form ACA Eastern Region at Ft. Lee.
- Realign Ft. McPherson by consolidating ACA regional office with existing office to form ACA Western Region at Ft. Sam Houston.
- Realign 1 leased location in Arlington, Virginia, Ft. Monroe, and Ft. McPherson by consolidating USA NETCOM HQ and regional offices to form NETCOM Eastern Region at Ft. Lee.
- Realign Rock Island Arsenal by consolidating NETCOM regional office with existing office to form NETCOM Western Region at Ft. Sam Houston.

Justification/Impact:

- Eliminates leased space within the DC Area (exact USF/GSF and personnel affected TBD-in process).
- Enhances AT/FP.
- Co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions.
- USA estimated personnel reduction of up to 200 positions (IMA Regions).
- Ft. Lee reports 28,658 GSF of vacant administrative space and sufficient land to accommodate over 21.3 million GSF of new administrative space.
- Ft. Sam Houston reports 88,945 GSF of vacant administrative space and sufficient land to accommodate nearly 11 million GSF of new administrative space.

As Of: 10/22/2004

Scenario # HSA-0047 DateCreated: 10/15/2004

Scenario Title: MAH-MAH 0004: Co-locate Missile and Space Defense Agencies

Description:

Close 5 leased locations in the DC Area, close 10 leased locations in Huntsville, AL, realign 4 leased locations in the DC Area, realign Naval Support Activity Dahlgren, and facilitate disposal of Federal Office Building 2 by consolidating components of Missile Defense Agency (MDA) and co-locating with, USA Space and Missile Defense Command Headquarters (SMDC), Naval Network and Space Operations Command (COMNAVNETSPAOPSCOM), and existing offices of SMDC and MDA at Redstone Arsenal.

Justification/Impact:

- Encompasses 1.001 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person= 761,400 GSF.
- 15 leased locations can be closed: approx. 450,000 USF
- Affects 4,343 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation (excluding Navy Activity), or 536 personnel.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations, e.g. MDA from at least 18 to 1, eliminates redundancy and enhances efficiency.
- Consolidation and co-location of large HQs facilitates possible consolidation of common support functions.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Consolidation and co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

Scenario Title: SR-1; Consolidates I-Level Ship Maintenance Work

Description:

This scenario consolidates intermediate-level ship maintenance, specifically: Realigns and consolidates intermediate workload at Norfolk Naval Shipyard. SIMA Norfolk would be closed and Norfolk Naval Shipyard would assume the intermediate workload. Assumes all SSNs from Norfolk would change homeport to Subase, New London. Intermediate submarine work at SIMA Norfolk would be realigned to NAVSUBSUPPFAC NEW LONDON. Consolidates intermediate-level ship maintenance in the San Diego region with the new Southwest Navy Regional Maintenance Center. Scenario Title: SR-3; Moves I-Level Carrier Work Fm Norfolk To PH & D-Level Sub Work Fm PH NSY To Other 3 NSYs

Description:

This scenario assumes a DON scenario which moves a CVN Strike Group from Norfolk to Hawaii. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pear Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. Scenario Title: SR-4; Realigns I-Level and D-Level Ship Maintenance Work

Description:

This scenario assumes a DON scenario which moves a CVN Strike Group from San Diego to Hawaii, moves a CVN from Everett to Bremerton and a CV from Mayport to Norfolk. Everett would be closed and 3 DD/DDGs from Everett would move to San Diego. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pear Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also assumes a DON scenario closes SUBASE New London and moves 2 SSN 21 ships to Bangor, 5 SSNs to Norfolk, 4 SSNs to Pearl Harbor and 6 SSNs to Portsmouth NSY. This scenario also assumes a DON scenario closes SUBASE Point Loma and moves the SSNs and the floating drydock ARCO to Pearl Harbor. Also assumes 2 SSGNs move from Kings Bay to Bangor. Also assumes 2 FFGs move from Pascagoula to Mayport and SIMA and NAVSTA Pascagoula close. Also assumes 5 MCMs and 6 MHCs move from Ingleside to both Mayport and to San Diego and Ingleside closes. All associated intermediate-level ship maintenance work moves to the new ship locations. This scenario also disestablishes Boston Planning Yard and Plant Equipment Support Office, Annapolis, and realigns there work with their respective shipyards, Puget Sound NSY and Norfolk NSY. The ship maintenance work at SHIPSO, Philadelphia, and at TRF Kings Bay is realigned to Norfolk NSY and SUBMEPP is consolidated into Portsmouth NSY.

Scenario Title: GC-CF-0003: Transfer Level III Discharged Prisoners to Federal Bureau of Prisons

Description:

Realign Ft Leavenworth by transferring long-term (Level III) bed space to Federal Bureau of Prisons (FBOP). Increase number of long-term (Level III) beds with the Federal Bureau of Prisons for transfer from United States Disciplinary Barracks (USDB), Ft Leavenworth.

Justification/Impact:

Current agreement with Federal Bureau of Prisons (FBOP) is insufficient.

- Approximately 1/3 of long-term prisoners are fully adjudicated and discharged from the military.
- Increase in FBOP support would open beds for shorter long-term prisoners at Level II facilities.
- Discharged prisoners would be sent to federal system.
- Efficient utilization of United States Disciplinary Barracks beds/cells.
- Promotes "Good order and discipline," by transferring prisoners who have committed the most serious of offenses and given long term or life sentences, away from general prison population.

Potential Conflicts:

- Cultural: "Cradle to grave" mentality. Military departments may wish to keep fully adjudicated and discharged prisoners as a way of the military "taking care" of its own.
- Other: Cost.

Scenario Title: GC-CF-0012: Create a Single Northwestern Regional Correctional Facility

Description:

Realign Subbase Bangor and Fort Lewis by disestablishing the correctional facility at Subbase Bangor and relocating the mission to a single Level II joint regional correctional facility located at Fort Lewis.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Subbase Bangor (Year built-1995)/(FY01 inmate count-42); Fort Lewis (Year built-1957)/(FY03 inmate count-206). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable land is available at Fort Lewis, questionable as to availability of land at Subbase Bangor. New facility required at Fort Lewis.

Realign MCAS Miramar, Edwards AFB, Kirtland AFB and Camp Pendleton by disestablishing the correctional facilities at Edwards AFB, Kirtland AFB and Camp Pendleton and relocating the mission to a single ILevel II joint regional correctional facility to be located at MCAS Miramar.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- MCAS Miramar (Year built-1989)/(FY03 inmate count-320); Edwards AFB (Year built-1950)/(FY03 inmate count-14); Kirtland AFB (Year built-1950)/(FY01 inmate count-16);Camp Pendleton (Year built-1972)/(FY02 inmate count-213). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ MCAS Miramar. Additional facility required.
- MCAS Miramar remains executive agent for Level III females.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON: Large Level I requirement as of 9/22/04 (60-pre-trial, 61-adjudged level I, 51- level II). Pretrial confinement is used intuitively by DON (cultural). USA and USAF don't use pre-trial as often as DON.

Description:

Close 4 leased locations and realign 5 leased locations, Arlington Service Center (Navy), and Ft. Belvoir by consolidating components of DISA at Offutt Air Force Base.

Justification/Impact:

- Consolidation of HQ locations from 11 to 1 eliminates redundancy and enhances efficiency.
- Encompasses 1.06 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 701, 200 GSF.
- Eliminates 566,000 USF of leased space within the DC Area (707,000 GSF equiv).
- 4 leased locations can be closed: approx. 535,000 USF.
- Affects 4,382 personnel, as currently reported. Scenario estimates a 20% personnel savings as a result of consolidation, or 876 positions.
- Enhances AT/FP
- Relocates major tenant from Arlington Service Center and allows Navy to consider closing that installation.
- Offutt AFB reports 26,986 GSF of vacant administrative space and sufficient land to accommodate 5.6 million GSF of new administrative space.
- Scenario does not consolidate the following locations: Anacostia Annex, Chambersburg, and Mechanicsburg.

Scenario Title: MAH-MAH-0035: Consolidate Missile Defense Agency (MDA) outside of the DC Area

Description:

Realign 2 leased locations, close 5 leased locations, and facilitate disposal of Federal Office Building 2 (FOB 2) by consolidating MDA HQ and relocating at Peterson Air Force Base.

Justification/Impact:

- Consolidation of MDA-controlled HQ locations from 8 to 1 eliminates redundancy and enhances efficiency.
- Encompasses nearly 600,000 GSF (or equivalent), as currently reported as MDA-controlled. Computed space required at 200 GSF/person=419,600 GSF.
- Eliminates over 248,000 USF of leased space within the DC Area.
- 5 leased locations can be closed: approx. 195,000 USF.
- Affects approximately 2,400 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 341 positions.
- Enhances AT/FP.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Peterson AFB reports 0 GSF of vacant administrative space and sufficient land to accommodate 2.3 million GSF of new administrative space.

Scenario Title: GC-CF-0015: Create a Single Mid-Atlantic Regional Correctional Facility

Description:

Realign Naval Station Norfolk, Marine Corps Base Quantico and Camp Lejeune by disestablishing the correctional facilities at Marine Corps Base Quantico, Naval Station Norfolk and Camp Lejeune and relocating the mission to a single Level II joint regional correctional facility to be located in Hampton Roads South.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Naval Station Norfolk (Year built-1972)/(FY02 inmate count-158); Marine Corps Base Quantico (Year built-1972)/(FY03 inmate count-46); Camp Lejeune (Year built-1969)/(FY02 inmate count-232). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ location in Chesapeake, Va.
- A 400 bed facility is required.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON concern of 4-hour commute to Hampton Roads and MOA w/FBI/CIA. No MOA exists between Quantico and FBI/CIA per Heads Corrections (PSL) HQ, USMC.

Scenario Title: MAH-MAH-0020: Relocate USA Space and Missile Defense Command (SMDC) Headquarters

Description:

Realign two leased space locations in Arlington, Virginia and realign one leased location in Huntsville, Alabama by relocating components of USA Space and Missile Command to Redstone Arsenal.

Justification/Impact:

- Eliminates 27,000 USF of leased space.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations eliminates redundancy.
- Affects approximately 161 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 23 positions.
- SMDC has existing, large presence at Redstone Arsenal.
- Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

Organization)

(a) NOTE: DFAS requires an additional 127,929 USF above CDC #1 reported assigned space. Departure of Air Reserve Personnel Center (ARPC) will free up 127,964 USF and enable completion of DFAS realignment to Buckley AFB Annex. Scenarios associated with the ARPC are HSA-0004, HSA-0005, and HSA-0008.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Denver: DFAS-Lawton, DFAS-Oakland, DFAS-Omaha, DFAS-Pacific (Ford Island), DFAS-Red River, DFAS-San Antonio, DFAS-San Bernardino, DFAS-San Diego, and DFAS-Seaside.

(3) DFAS-Indianapolis, (Bean Federal Center, former Ft Benjamin Harrison) 8899 E. 56th Street, Indianapolis, IN 46249 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services Organization)

(a) NOTE: DFAS requires an additional 26,697 USF above CDC # 1 reported assigned space. Departure of Human Resource Command - Indianapolis (former EREC) will free up 76,740 USF and enable completion of DFAS realignment. Scenarios associated with the Human Resource Command - Indianapolis HSA-0004, HSA-0005, and HSA-0006.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Indianapolis: DFAS-Charleston, DFAS-Kansas City, DFAS-Lexington, DFAS-Orlando, DFAS-Pensacola NAS, DFAS-Pensacola Saufley Field, DFAS-Rock Island, and DFAS-St Louis.

Locations with potential retained customer support/liaison staff, contracted function(s), or which are deemed special purpose in nature include:

(1) Technology Services Organization Liaison - Defense Property Accountability System, DFAS-Mechanicsburg, (Navy Supply Information Systems Activity, Building 407) 5454 Carlisle Pike, FMSO Code 97412, Mechanicsburg, PA 97412

(2) Other customer support/liaison staff locations TBD (i.e., DFAS-Seaside, Corporate and Administrative Organization-Internal Review Auditors for Defense Manpower Data Center)

(3) LMIT-Retired & Annuitant Pay Contractor, DFAS-Cleveland, 1240 E 9th Street, Cleveland, OH 44199

(4) Corporate and Administrative Organization-Contractor Support, Southbridge Hotel & Conference Center, 14 Mechanic Street, Southbridge, MA 01566

(5) Technology Services Organization, DFAS-Cleveland Bratenahl, (Defense Contract Management Agency Hosted Installation) 555 E 88th St (Admiral Kidd Center), Bratenahl, OH 44108

Justification/Impact proposed:

- Reduces footprint - Admin by 42% or 1,399,421 USF and Warehouse by 69% or 525,690 GSF.
- Implements merge/co-location personnel reduction (15%).
- Overall AT/FP enhancement - DFAS will be on a DoD installation or in Government leased space that meets DoD AT/FP standards.
- Service's unit costs will go down.
- Gaining site expansion enabled by departure of specific military personnel organizations from Denver and Indianapolis.
- No requirement for renovation at gaining sites.
- Risk averse - Mitigates risk thru centralized, apportioned operations (each segment may serve as backup).
- Better Business Practice - Creates business line centers of excellence.
- Facilitates DFAS re-engineering for FY2011 organization.

Scenario Title: MAH-MAH-0022: Co-locate Miscellaneous OSD and 4th Estate Leased Locations

Description:

Close 9 and realign 26 leased locations by co-locating components of the Office of the Secretary of Defense, Washington Headquarters Services, the Defense Technology Security Administration, the Defense Legal Services Agency, the Defense Human Resources Activity, and the DOD Inspector General along with sufficient space to accommodate overflow from the Pentagon Renovation Project an administrative campus at the Engineering Proving Ground site at Ft. Belvoir.

Justification/Impact:

- Encompasses 1.1 million GSF (or equivalent) of regular leased plus 1.0 million GSF as a placeholder for Pentagon Renovation overflow. Computed space required at 200 GSF/person = 1.6 million GSF.
- Eliminates 939,000 USF of regular leased space within the DC Area, plus over 900,000 equiv GSF in Pentagon Renovation space.
- 9 leased locations can be closed, including Pentagon Renovation buildings: approx. 1.26 million USF.
- Affects 3,307 personnel in regular space plus provides space for an estimated 5,000 personnel potentially affected by the Pentagon Renovation overflow, as currently reported. Scenario estimates a 14% personnel savings for WHS as a result of consolidation, or 43 positions.
- Enhances AT/FP.
- Consolidation of HQ location with sub-components eliminates redundancy and enhances efficiency.
- Ft. Belvoir reports no vacant administrative space but sufficient land to accommodate over 15 million GSF of new administrative space.

Description:

Realign Naval Station Norfolk, Marine Corps Base Quantico and Camp Lejeune by disestablishing the correction facilities at Marine Corps Base Quantico, Naval Station Norfolk and Camp Lejeune and relocating the mission to a single Level II joint regional correctional facility to be located in Hampton Roads South.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Naval Station Norfolk (Year built-1972)/(FY02 inmate count-158); Marine Corps Base Quantico (Year built-1972)/(FY03 inmate count-46); Camp Lejeune (Year built-1969)/(FY02 inmate count-232). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ location in Chesapeake, Virginia.
- A 400 bed facility required.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments
- DON concern of 4-hour commute to Hampton Roads South and MOA w/FBI/CIA. No MOA exists between Quantico and FBI/CIA per Heads Corrections (PSL) HQ, USMC.

Principles: Consolidate legacy fleet; Optimize squadron size; Ensures force available for AEF construct

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0009 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - Fighters

Description:

Base squadrons at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Target squadron size at 24 PAA; Limit wing size to <= 3 squadrons

Exceptions: If installations have more than 3 squadrons now, do not automatically reduce

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0010 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - Bombers

Description:

Base bombers at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Target squadron size at 12 PAA; Limit wing size at <= 3 squadrons

Exceptions: If installations have more than 3 squadrons now, do not automatically reduce

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0011 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - C2ISR

Description:

Base C2ISR assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate C2ISR assets

Exceptions: If installation has consolidated MDS now, do not reduce

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0012 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - Airlift

Description:

Base airlifters at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Optimize squadron size; Consolidate airlift assets

Exceptions: If installation has consolidated MDS now, do not reduce

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0013 **Date Created:** 9/22/2004

Scenario Title: Mission Compatibility Index - Space Ops

Description:

Principles: Primary determinant - MCI rating; Consolidate Space ops assets, if consolidation is not complementary

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0014 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index -SOF/CSAR

Description:

Base SOF and CSAR and A-10 assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate SOF assets; Consolidate CSAR assets; Consolidate A-10 assets

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0015 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - Tankers

Description:

Base at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Optimize squadron size at 16 PAA (KC-135s)/12 15 PAA (KC-10)

Must maintain proximity to deployment routes

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0016 **DateCreated:** 9/22/2004

Scenario Title: Mission Compatibility Index - UAV/UCAS

Description:

Base UAV/UCAS assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate similar UAV/UCAS assets

Preserve capacity required for post-2011 (UAV/UCAS) force structure

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0017 **DateCreated:** 9/22/2004

Scenario Title: Geographic Co-location

Description:

Consider co-locating Total Force presence among multiple installations when locations are within proximity of each other

Principles: Primary determinant - Maintain/Place ARC units to meet the requirements of the Air Force at locations that meet the demographic and mission requirements unique to the ARC

Registered Scenarios

As Of: 10/22/2004

Scenario # USAF-0018 **DateCreated:** 10/21/2004
